Feb. 16, 1952

Mr. Karl Honeystein
WYBC
Box 242-A, Yale Station
New Haven, Conn.

Dear Karl:

Though the Yale basketball team did not fare too well last night, I trust that the broadcast of the game was clearly received. As for the broadcast of the 12th, I spoke to Rit Swicker, and he told me that there was interference on the line until 9:14 that evening. The phone company called him several times inquiring about the reception, and Rit told them just what he told me. Rit also told me that if the phone company found that they were at fault, WDBS would not have to pay the line charges. We have a tape of the game proving the poor reception up till that 9:14 time. It's too bad about the line being crossed, but those things are liable to occur most anytime. It's no use worrying about; we can just use it to add more evidence to the saying "unto one's life some rain must fall" or something like that.

You'll probably feel as badly as we did when I tell you that Bud Schweich left us last week, answering an invitation from his draft board. We all realized that Bud was in danger of getting called, but we did not think it would be so soon. WDBS will certainly miss him for the next year and one-half. I had been working with Bud for the last few months in the capacity of Production Manager, and now with his exit from Dartmouth I have sort of slipped into his position of Program Director. I only hope that I can continue the work that was started by Bud in his dealings with WYBC.

Nothing more from the slush-filled campus in Hanover. As I said before, if the phone company finds themselves not at fault, let's just forget it and let it die a natural death.

Looking forward to meeting you at some future time, I remain,

Sincerely yours,

Herb Solow
